

Gel Fuel Safety Recall

Gel fuel is used with firepots, personal fireplaces, and patio torches. But is it safe? Read this important recall notice!

Gel Fuel Warning

The U.S. Consumer Product Safety Commission (CPSC), in cooperation with nine manufacturers and distributors, has announced a voluntary recall of all pourable gel fuel made or sold by these companies. Gel fuel is used with firepots, personal fireplaces, and patio torches. For more information go to www.cpsc.gov

SAFETY RECALL

Due to the serious risk of flash fire and burns when consumers add pourable gel to an already burning fire pot, NFPA and CPSC are warning consumers to immediately stop using the pourable gel fuel.

Gel fuel and gel fuel pots should be considered an open flame and pose a serious danger.

The fuel can ignite unexpectedly and splatter onto people and objects nearby when it is poured in a firepot that is still burning.

Pouring gel fuel in a device that is not completely cool may result in a fire or injury.

These devices will be hot during and after burning.

The burning gel fuel sticks to skin and is difficult to extinguish.

It is not easy to see the gel fuel flame, especially in daylight.

All pourable gel fuel, regardless of manufacturer, poses a fire hazard.

Consumers should contact the gel fuel manufacturer for information on refunds and product return.
